

How to Select Student Electives

Step-by-step guide — Class Management module

Overview

This guide walks through how a Class Teacher assigns elective subjects (e.g., Moral Science or Islamic Culture) to students in their class using the TrackMySchool platform, from the Dashboard through to a saved confirmation. It covers navigating to Class Management, opening Student Elective, selecting a class, choosing electives per student, and saving.

Who this is for

Respective Class Teachers with access to the Academic → Class Management module in TrackMySchool. Elective selection can only be done by the class teacher of the class the students belong to.

What you'll need

- An active TrackMySchool login (Teacher role)
- Access to the Academic menu with Class Management permissions
- The academic year selected (e.g., 2026-2027); you must be the class teacher of record for the class you want to update

Step-by-Step Instructions

Step 1 — Open Academic → Class Management

From the Dashboard, click Academic in the left-hand navigation menu to expand it, then select Class Management. This sits alongside Attendance Management, Exam Management, and Behavior and Discipline.

Figure 1. Expanding the Academic menu to reveal Class Management

Step 2 — Open the Student Elective screen

On the Class Management Dashboard, click the DATA ENTRY button in the top toolbar, then select Student Elective from the dropdown.

Figure 2. Data Entry menu on the Class Management Dashboard

Step 3 — Select the class

On the Student Elective page, under Add Student Electives, use the Class dropdown to choose your class (e.g., IV F). Only the class you are the class teacher for will be available to select.

Figure 3. Selecting a class on the Student Elective page

Step 4 — Review the class roster and elective options

Once a class is selected, a table loads showing each student's Roll No., Admission No., Name, and Gender, along with elective columns (e.g., Moral Science and Islamic Culture) as checkboxes. Some students may already have a default or previous selection checked.

The screenshot shows the TrackMySchool interface. On the left is a sidebar with navigation links: Dashboard, Administration, Academic (selected), Fee, Transportation, and LMS. The main content area is titled 'Student Elective' and includes a 'DATA ENTRY' button. Below this is a section 'ADD STUDENT ELECTIVES' with a 'Class' dropdown menu set to 'IV F'. A table displays 10 students with columns for Roll No., Admission No., Name, Gender, and two elective checkboxes: 'Moral Science' and 'Islamic Culture'.

Roll No.	Admission No.	Name	Gender	Moral Science / Islamic Culture	
				Moral Science ☐	Islamic Culture ☐
1	19574	ANN MARIA ANOOP	Female	☒	☐
2	19623	FATHIMA AAFIYA	Female	☐	☒
3	19728	YUNOUS ROUHULLAH MOHD AZIM	Male	☐	☒
4	19904	AHMED ABDELGADER TALLHA	Male	☐	☒
5	19971	ZEUS ROCCO NORONHA	Male	☒	☐
6	20014	JENIYA TERASA JOSSY	Female	☒	☐
7	20247	ADON AJU JACOB	Male	☒	☐
8	20425	MUHAMMAD HUSSAIN SHAD	Male	☐	☒
9	20557	AYAN AMJAD	Male	☐	☒
10	20641	EMAN AMJAD	Female	☐	☒

Figure 4. Student roster with elective checkboxes

Step 5 — Assign an elective to each student

For each student, tick the checkbox for the elective they should be assigned (e.g., Moral Science or Islamic Culture). Scroll down through the full class list and set the correct option for every student.

Step 6 — Save the selections

After setting the electives for all students, scroll to the bottom of the table and click Save. Click Cancel instead if you want to discard your changes.

Figure 5. Save and Cancel buttons at the bottom of the student list

Step 7 — Confirm the update was saved

After saving, a green banner appears at the top of the page reading “Student electives added successfully,” and the page resets to the Class selector, ready for the next class if needed.

Figure 6. Success message after electives are saved

Quick Reference Summary

- Dashboard → Academic → Class Management
- Class Management Dashboard → DATA ENTRY → Student Elective

- Select Class → roster with elective checkboxes loads automatically
- Tick the correct elective checkbox for each student
- Click Save → look for the green success banner

Notes

- Elective selection is restricted to the respective class teacher — only the teacher assigned as class teacher for a given class can select electives for the students in that class.
- Each student should have exactly one elective selected; double-check that no student is left with both or neither box ticked before saving.
- The academic year selector (top right, e.g., 2026-2027) determines which year's roster is shown — confirm it's set correctly before making changes.
- This guide is based on a screen recording of the workflow; menu labels, field names, and available electives may vary slightly depending on your school's configuration.
