

How to Access Mark Entry and Holistic Card Entry

Step-by-step guide — Exam Management module

Overview

This guide covers two related data-entry screens under Exam Management in TrackMySchool: Mark Entry and Holistic Card Entry. Both are reached the same way, but access and purpose differ:

- Mark Entry — used by Subject Teachers (including Class Teachers, for the subjects they teach) to enter marks for the classes and subjects assigned to them. Access to this screen is granted by the Admin.
- Holistic Card Entry — used only by the Class Teacher of a given class, to record holistic assessment data (Student Assessment, Attendance, Student Measurements) for their class.

What you'll need

- An active TrackMySchool login (Teacher role)
- For Mark Entry: subject-teacher access to Exam Management, granted by the Admin, for the class/subject you teach — this applies whether you are a subject teacher or a class teacher teaching a subject
- For Holistic Card Entry: you must be the class teacher of record for the class
- The academic year selected (e.g., 2026-2027)

Getting to Exam Management

Step 1 — Open Academic → Exam Management

From the Dashboard, click Academic in the left-hand navigation menu to expand it, then select Exam Management. This sits alongside Class Management, Attendance Management, and Behavior and Discipline.

Figure 1. Expanding the Academic menu to reveal Exam Management

Step 2 — Exam Management Dashboard

This opens the Exam Management Dashboard, with two menus in the top toolbar: DATA ENTRY and REPORTS.

Figure 2. Exam Management Dashboard

Step 3 — Open the Data Entry menu

Click DATA ENTRY. Two options appear: Mark Entry and Holistic Card Entry. Which of these you can use, and for which class(es), depends on the access assigned to your account.

Figure 3. Data Entry menu showing Mark Entry and Holistic Card Entry

Part A — Mark Entry (Subject Teachers, including Class Teachers)

Mark Entry is used by teachers to enter marks for the class(es) and subject(s) they have been assigned to teach — this includes both subject teachers and class teachers, whenever they are teaching a subject. The Admin controls which teacher can access which class/subject combination here.

Step A1 — Open Mark Entry

From the DATA ENTRY menu, click Mark Entry.

Step A2 — Fill in the search filters

On the Mark Entry screen, use the Search panel to select the Class, Term, Exam, Subject Category, and Subject you want to enter marks for, then click Search. Only the classes and subjects you are authorized to teach (as set up by the Admin) will be available here.

The screenshot shows a web browser window with the URL 'ics.trackmyschoolonline.com/academic/mark_entry.php'. The page is titled 'Mark Entry' and features a search panel with five dropdown menus: 'Class *', 'Term *', 'Exam *', 'Subject Category *', and 'Subject'. Each dropdown menu currently displays '-Select-'. Below the dropdowns are 'Search' and 'Cancel' buttons. The left sidebar contains a navigation menu with options: Dashboard, Administration, Academic, Fee, Transportation, and LMS. The top right of the page shows the school year '2026-2027' and the user role 'Teacher'. The bottom of the browser window shows a Windows taskbar with a search bar and system icons.

Figure 4. Mark Entry search filters (Class, Term, Exam, Subject Category, Subject)

Step A3 — Enter marks

After searching, the mark entry grid for the selected class/subject/exam loads, where marks can be entered for each student and saved.

Part B — Holistic Card Entry (Class Teachers only)

Holistic Card Entry is used only by the Class Teacher of a class, to record holistic data for their students — covering Student Assessment, Attendance, and Student Measurements.

Step B1 — Open Holistic Card Entry

From the DATA ENTRY menu, click Holistic Card Entry.

Figure 5. Holistic Card Entry search screen

Step B2 — Select Class

Use the Class dropdown to select your class. As the class teacher, only the class you are responsible for will be available here.

Step B3 — Select the Module

Use the Module dropdown to choose which holistic data you want to enter: Student Assessment, Attendance, or Student Measurements.

Figure 6. Module options — Student Assessment, Attendance, Student Measurements

Step B4 — Select the Term

Use the Term dropdown to choose Term - I or Term - II.

Figure 7. Term options — Term I / Term II

Step B5 — Search and enter data

Click Search to load the holistic entry form for the selected class, module, and term, then enter the relevant data for each student and save.

Quick Reference Summary

- Dashboard → Academic → Exam Management → DATA ENTRY
- Mark Entry (Subject Teachers and Class Teachers, access granted by Admin): select Class, Term, Exam, Subject Category, Subject → Search → enter marks
- Holistic Card Entry (Class Teachers only): select Class, Module (Student Assessment / Attendance / Student Measurements), Term → Search → enter data

Notes

- Mark Entry access is role-based and configured by the Admin — a teacher (subject teacher or class teacher) will only see the classes and subjects they have been given permission to enter marks for.
- Holistic Card Entry is restricted to the respective class teacher — only the teacher assigned as class teacher for a class can enter holistic data for that class.
- The academic year selector (top right, e.g., 2026-2027) determines which year's data is shown — confirm it's set correctly before making entries.
- This guide is based on a screen recording of the navigation and search screens; the actual mark/holistic entry grids and their fields may vary depending on the exam and module selected.
