

How to View and Update a Student Profile

Step-by-step guide — Registration Management module

Overview

This guide walks through how a Class Teacher updates a student's profile (using the Address section as an example) in the TrackMySchool platform, from the Dashboard through to a saved confirmation. It covers navigating to Registration Management, selecting a class, opening a student's record, editing details, and saving the update.

Who this is for

Class Teachers with access to the Administration → Registration Management module in TrackMySchool. Profile updates should only be made by the class teacher of the student being edited.

What you'll need

- An active TrackMySchool login (Teacher role)
- Access to the Administration menu with Registration Management permissions
- The academic year selected (e.g., 2026-2027) and the class you are the class teacher for

Step-by-Step Instructions

Step 1 — Start at the Dashboard

After logging in, you land on the Dashboard, which shows summary cards (Students, Active Students, Inactive Students, TC, Long Absentee, Withheld) and your attendance widget.

Step 2 — Open Administration → Registration Management

In the left-hand navigation menu, click Administration to expand it, then select Registration Management.

Step 3 — Open the Student Profile screen

On the Registration Management Dashboard, click the DATA ENTRY button in the top toolbar. A dropdown appears with two options: Student Profile and Student Profile Approval. Click Student Profile.

Step 4 — Select a class

On the Student Profile page, use the Class dropdown and choose the class you want (e.g., IV F). The page automatically loads the roster for that class once a class is selected.

Step 5 — Locate the student in the roster

The class roster displays each student's Roll No., Admission No., and Name, along with two action icons under Options: a pencil (edit) icon and an eye (view) icon. Scroll through the list, or use it as-is, to find the student you want to update.

The screenshot shows the 'Student Profile' page in the TrackMySchool system. The 'Class' dropdown is set to 'IV F'. Below it, a table lists 10 students with their Roll No., Admn No., and Name. Each student has two icons in the 'Options' column: a pencil (edit) and an eye (view).

Roll No.	Admn No.	Name	Options

Step 6 — Open the student record for editing

Click the pencil (edit) icon in the Options column for the student you want to update. This opens a Manage Student window in a new browser tab/pop-up, structured as a 3-step wizard:

1. Student Information
2. School Information
3. Parent Information

By default it opens on the Student Information step, pre-filled with the student's existing details (name, gender, nationality, date of birth, civil ID, passport details, area, etc.).

Step 10 — Continue or exit

From here, you can click Next to proceed to School Information and Parent Information to review or edit those sections, or close the window/tab to return to the Student Profile roster.

Quick Reference Summary

- Dashboard → Administration → Registration Management
- Registration Management Dashboard → DATA ENTRY → Student Profile
- Select Class → roster loads automatically
- Click the pencil (edit) icon next to a student's name
- Edit fields in the relevant step (e.g., Address, under Student Information)
- Click Update → confirm with OK → look for the green success banner

Notes

- Only the class teacher of a student should update that student's profile.
- The eye (view) icon opens the same record in read-only mode, without the ability to edit.
- The academic year selector (top right, e.g., 2026-2027) determines which year's roster and records are shown — confirm it's set correctly before making changes.
- Fields marked with a red asterisk (*) are required and must be completed before the record can be saved.
- This guide is based on a screen recording of the workflow; menu labels, field names, and available options may vary slightly depending on your user role and school configuration.
